

Modern Airmanship: Managing the Human Factor in Aviation

The majority of aviation accidents today are attributed, at least in part, to human error. This seminar will explore how we can work to minimize these errors as pilots and foster an environment where true airmanship can flourish. After the seminar participants will be able to explore some of Gauntlet's aircraft, including a Decathlon, T-6, Extra 300, and L-39.

Directions: Enter through Gauntlet Warbirds' offices in Hangar 3. As soon as you turn off of US 30 to enter the airport, make an immediate right followed by an immediate left; you will see the Gauntlet Warbirds logo on an awning along with a sign for Lumanair maintenance on the hangar in front of you.
